

TPCDT organises mega health camps in the villages at Kalinganagar

- Bhubaneswar, May 03, 2016

Tata Power Community Development Trust (TPCDT), has always been at the forefront for augmenting good-health and wellbeing of the neighbouring communities based around the areas of its operation. Driving this forward, we organised mega health camps in villages at Kalinganagar, Orissa.

The objective of organizing these health camps was to reach out to the most vulnerable groups that primarily include senior citizens and communities who cannot afford proper medical facilities. More than 1210 people benefited from free medical check-ups and were also provided medical consultation and free medicines as prescribed. Doctors with different specializations like Medicine specialist, Skin specialist, Gynaecologist & Paediatric were deployed for proper health check-up & diagnosis.

Speaking on the occasion, Mr. Vijayant Ranjan, CEO-IEL and Chief Kalinganagar station, “we endeavours to provide a caring, supportive and healthy environment within the community. We are delighted with the great response that we have received from the people particularly from the senior members. We will continue to organise such health camps for the welfare and sustainable growth of the community”

The Mega health camps were organized in Ranagundi Gram Panchayat, Sansailo Gram panchayat & Oalia Gram panchayat near Kalinganagar area. The initiative was well appreciated by local Sarpanch, community Leaders and Government Officials.
